8. Changes

The DSTA may change the General Single Market Specialist Conditions from time to time, having a binding effect upon both parties. The Single Market Specialists and Primary Dealers will be informed in advance of any such changes.

Annex 1: Quotation obligations in DTCs

- 1.1. A Single Market Specialist or Primary Dealer has fulfilled its quotation obligation if, on a monthly basis, the Single Market Specialist or Primary Dealer has established on a Designated Electronic Trading System a compliance score of at least 90 percent. Daily compliance is calculated based only on quotes in volumes in conformity with table 1 below. Daily compliance per DTC is calculated as the time (expressed as a percentage of 6 hours) that (i) the time weighted average spread of the actual hours quoted or (ii) the average time weighted spread over the best 6 hours quoted (whichever gives the highest compliance), is in conformity with table 1 below. Daily compliance is calculated as the average compliance over all DTCs. Monthly compliance is calculated as the average of the daily compliance. Obvious outliers will be left out of the calculations.
- 1.2. The Primary Dealers and Single Market Specialists are exempted from the quotation obligation on Eurosystem TARGET 2 holidays. The Single Market Specialists and Primary Dealers must submit to the DSTA a calendar of holidays during which they would like to be exempted from their obligation. A calendar for only one country can be submitted per business plan. A Single Market Specialist or Primary Dealer shall be exempted from its quotation obligations on the holidays reported in its business plan. Additionally, all Single Market Specialists and Primary Dealers shall be exempted from their quotation obligation on days on which more than half of the Single Market Specialists and Primary Dealers are exempted from the quotation obligation. The DSTA reserves the right to exempt Single Market Specialists and Primary Dealers from their quotation obligation on other days at its own discretion. When exercising this right the DSTA shall inform the Single Market Specialists and Primary Dealers in a timely manner. If the Single Market Specialists and Primary Dealers do not submit a calendar in its business plan to the DSTA, the DSTA will use the public holiday calendar of the domicile country of the Single Market Specialists and Primary Dealers.
- 1.3. In the situation where a Single Market Specialist or Primary Dealer quotes on more than one Designated Electronic Trading System, only the quotes on the trading system on which the Single Market Specialist or Primary Dealer has showed the best compliance score that day (when considering the total quoting performance of all DTCs) shall be taken into consideration when evaluating the fulfilment of the quotation obligation.
- 1.4. The Single Market Specialists and Primary Dealers will be informed on their compliance with quotation obligations on a daily and monthly basis. If requested by the Single Market Specialists and Primary Dealers, the DSTA will co-operate in an audit of these reports. The format under which the information is provided, is set by the DSTA in consultation with the Single Market Specialists and Primary Dealers and electronic trading systems.

Table 1 – Quotation obligations

	<i>Standard max b/o spread</i>	<i>Aggregated Max b/o spread¹</i>	<i>Minimum quantity</i>
DTCs	4 basis points	Max(4bp; $\pi_{6h} + \sigma_{6h}$) **	€ 10 million

** π_{6h} = average of the PDs and SMSs 6 best hours quotes, σ_{6h} = standard deviation of the PDs and SMSs 6 best hours quotes

¹ If the average of the Single Market Specialists and Primary Dealers quotes is wider than the standard max b/o spread, the maximum b/o spread will be one standard deviation of the average spread of the 6 best hours quotation of all Single Market Specialists and Primary Dealers that have quoted that DTC.

Annex 2: Euro Market Activity Reports

1. Single Market Specialists and Primary Dealers shall report their monthly turnover figures in DTCs, providing data with respect to counterparty type, location, maturity bucket and trading system instrument according to the Euro Market Activity Report on the EFC-website: http://europa.eu/efc/euro-market-activity-report_en
2. Under the Euro Market Activity Reports, the turnover figures will be reported on a trade by trade basis. The usage by DSTA of the data provided is subject to the Standard Confidentiality Arrangements as set out in *Annex 5 (Standard Confidentiality Arrangements in relation to Euro Market Activity Report)*.
3. The data is to be transmitted electronically in the format described in the Euro Market Activity Report, to tradereports@minfin.nl, duly signed by the Managing Director of the relevant Single Market Specialist or Primary Dealer.
4. The data is to be received no later than ten days after the month to which they relate.

Annex 3: Selection of Designated Electronic Trading Systems

- 1.2. Offer access to all Primary Dealers and Single Market Specialists equally and fairly. The fee structure of the platform must be non-discriminatory; i.e. be based on objective criteria and must be made public. There should be no prohibitively high fees for market takers who are Primary Dealers or Single Market Specialists.
- 1.3. Make public current bid and offer prices at those levels which are advertised through the trading system on a continuous basis during normal trading hours on reasonable commercial terms to market participants. Bid and offer prices must be made available free of charge to private individuals at those levels which are advertised through the trading system on a continuous basis during normal trading hours.
- 1.4. Make public a list of market makers and market takers on the platform.
- 1.5. Provide the DSTA with all the market statistics needed to appraise the performance of its Primary Dealers and Single Market Specialists and to monitor compliance with their market making commitment. If requested by the DSTA, platforms must co-operate in an audit of these statistics. The format under which the statistics are provided is set by the DSTA in consultation with the Designated Electronic Trading Systems and the Primary Dealers and Single Market Specialists. The format and required statistics are enclosed in *Annex 4 (Format market statistics)*. The DSTA will publish a list of Designated Electronic Trading Systems.

For a trading system to be designated, it must:

- 1.6. Send a duly signed application form to the DSTA satisfying that it fulfils the criteria above. The DSTA appraises applications pursuant to the above-mentioned conditions.

For a trading system to remain a Designated Electronic Trading System, it must

- 1.7. Comply with the conditions under this *Annex 3 (Selection of Designated Electronic Trading Systems)*. To demonstrate compliance, Designated Electronic Trading System shall provide all necessary information and shall cooperate in an audit of this information upon request of the DSTA. If a Designated Electronic Trading System fails to meet one or more conditions under this *Annex 3 (Selection of Designated Electronic Trading Systems)*, the DSTA brings that fact to the attention of the trading system concerned. The DSTA shall communicate to the trading

system a period of time within which the trading system can demonstrate that it complies in full with the conditions. If, at the DSTA's discretion, the envisaged compliance is not realised within that period, the DSTA has the right to withdraw the status of Designated Electronic Trading System. The DSTA shall inform the trading system as well as all Primary Dealers and Single Market Specialists without delay.

Annex 4: Format market statistics

The following describes the format of the market statistics needed to appraise the performance of the Primary Dealers or Single Market Specialists.
